

TURNER

MACHINE DEVELOPMENT

AUTOMATED SOLUTIONS THAT ALLOW YOU TO
RETURN TO WHAT MATTERS MOST

ENGINEERING CAPABILITIES

- Electrical Drawings
- Mechanical Drawings
- Component Selection and Optimization
- Industrial Electrical Panel Design and Layout Customization
- Robotic Cell Layout and Design
- Flexible Machine Solutions
- Conveyor and Material Handling Solutions
- Custom 2D/3D Design and 3D Simulation

MACHINE VISION & BARCODE READERS

- Cognex and Keyence
- Dataman Barcode Reader
- FANUC IRVision

CUSTOM MACHINE BUILDS

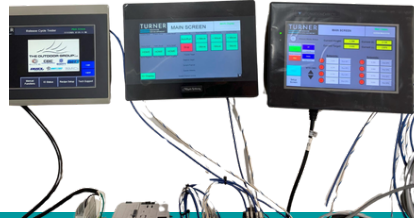

- High Quality and Low Maintenance Solutions for Any Industrial Need
- Collaborative Approach Involving Close Customer Relationships

HMI/PLC PROGRAMMING

- Allen Bradley, Omron, Automation Direct, Siemens, Schneider
- Custom HMI and PLC Upgrade Solutions
- PLC Troubleshooting and Training Support
- Safety System Upgrades for Existing Equipment
- Safety PLC Programming and Support

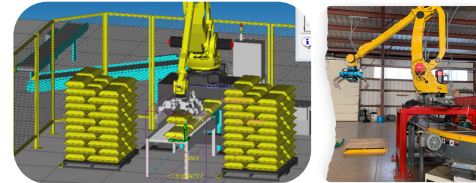

ROBOTIC PROGRAMMING

- Fanuc, Yaskawa Motoman, Kawasaki, ABB, Denso, UR, Epson
- Specialization in Bag/Box Palletizing and Material Handling Solutions
- In-line Robotic Inspection Systems
- Custom Machine Tending Applications
- End of Arm Tooling Design and Prototyping
- Robot Pedestal and Cell Layout Designs
- Robotic Sales and Distribution

TECHNICAL SUPPORT

- Control Panel Builds
 - UL Certified
- Onsite Customer Service
- Field Wiring and Machine Troubleshooting
- Mechanical Integration and Installation Solutions
- Existing Machine Upgrades and Integration Solutions
- Service Calls
- Networking/Cabling Solutions
- Security and Process Monitoring Solutions
- Machine Remote Connectivity
